Hack
APERTVS

Fine-tune Apertus.
Serve Public & Private sector.

Hack. Prototype. Showcase. A community initiative where teams fine-tune Apertus 8B, build open source solutions for the public & private sector, and unveil them at a closing night in 2027.

FINE-TUNE APERTUS · SERVE PUBLIC & PRIVATE SECTOR

Partner Packages

Five ways to get involved — from community voice to main event partner.

Community Partners

Free

WE OFFER

- Logo on website + ❤

FROM HACKATHONS TO REAL-WORLD SOLUTIONS

1 — Q3/Q4 2026

2-week online hackathon

Teams source and curate datasets across text, image, and voice, fine-tune Apertus 8B, and evaluate the model against real-world content.

2 — Q4 2026 – Q1 2027

On-site hackathons

Teams build real-world use cases together with industry and public partners on top of Apertus models.

3 — Q2 2027

Award & Closing Night

Top projects are showcased in an open evening of exchange and celebration with citizens and Switzerland's AI community.

4 — Q2 2027

AI Summit Geneva
